# Guida rapida

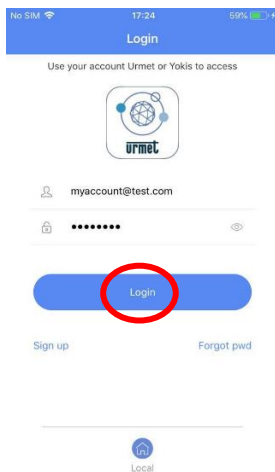

## Connessione telecamere Wi-Fi

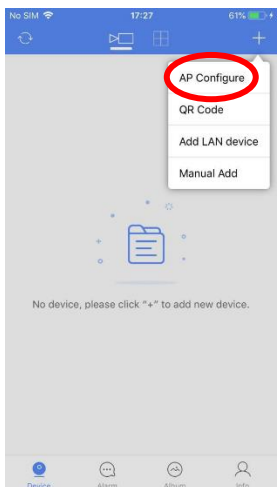

Scarica l'app **V-Stream** dallo store e **Iscriviti** per creare un account Urmec Cloud.

Controlla la posta, arriverà una email attraverso la quale potrai confermare la registrazione e attivare il tuo account.

Inserisci le credenziali e seleziona **Login**.

Premi **+** per aggiungere una nuova Telecamera e seleziona **Access Point**.

Se lo smartphone non è connesso alla rete Wi-Fi della telecamera, premi il pulsante per accedere alle impostazioni dello smartphone.

Seleziona la rete Wi-Fi della Telecamera (SSID = URM\_XXXXXX). Se richiesta, inserire la password Wi-Fi: 01234567

The device will open the hotspot with the "URM\_" field, please click the button below to go to the settings interface to connect to the hotspot.

Ritorna all'app V-Stream e premi **Seguente**.

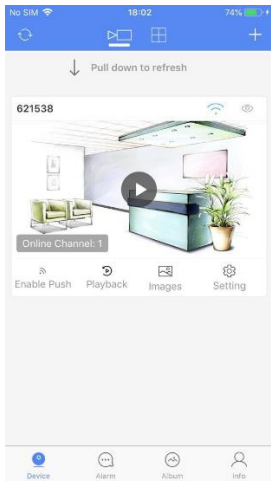

Attendi lo step successivo.

Al fondo della pagina, nell'elenco di rete Wi-Fi disponibili rilevate dalla telecamera, seleziona quella corrispondente al router cui va collegata la telecamera e inserisci la password Wi-Fi.

Attendi lo step successivo.

La telecamera è ora in elenco. Se lo stato della telecamera non è **Online** è possibile aggiornarlo trascinando l'elenco verso il basso. Premi sull'icona per avviare il video live.

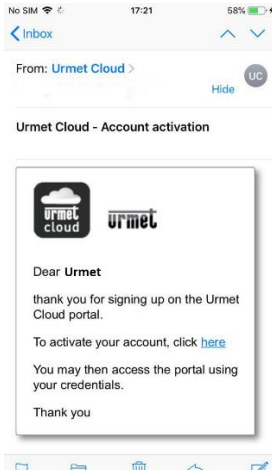

È ora possibile vedere le immagini direttamente sullo smartphone.

# Quick Guide

## Wi-Fi Cameras connection

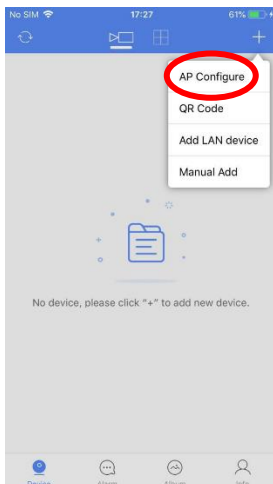

Download the app **V-Stream** from the store and **Sign up** to create a new Cloud account.

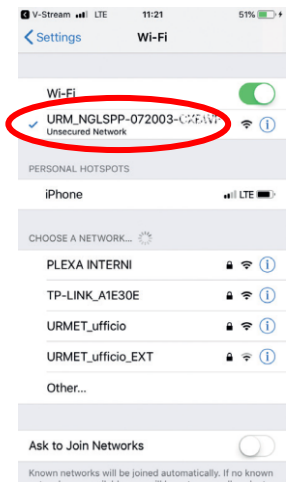

Check your mailbox, as you will receive an e-mail allowing you to confirm your registration and activate your account.

Enter your credentials and select **Login**.

The device will open the hotspot with the "URM\_" field, please click the button below to go to the settings interface to connect to the hotspot.

Select + to add a new camera through the option **AP Configure**.

The device will open the hotspot with the "URM\_" field, please click the button below to go to the settings interface to connect to the hotspot.

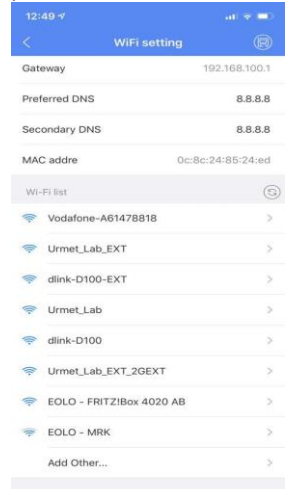

Go back to the **V-Stream** app and select **Next**.

If the smartphone is not connected to the camera's Wi-Fi, push the button to open the smartphone Wi-Fi settings.

Wait for the next step.

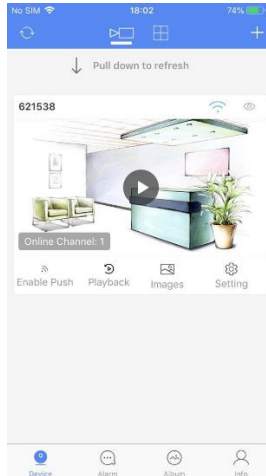

Select the network of the camera (SSID = URM\_XXXXXXX). If required, enter the Wi-Fi password: 01234567

Scroll down to the page bottom, in the list of Wi-Fi SSIDs detected by the camera, select the one corresponding to your router and input the Wi-Fi password, the camera will now connect to the router.

Wait for the next step.

Now you can watch the images directly on your smartphone.

# Guide rapide

## Association caméras Wi-Fi

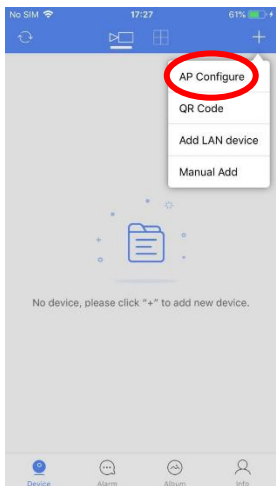

Téléchargez **V-Stream** du store et cliquez sur **S'inscrire** pour créer votre compte Urmet Cloud.

Dans votre boîte mail vous allez trouver un courriel qui vous permettra de confirmer l'inscription et activer votre compte.

Saisissez vos informations d'identification et cliquez sur **Connexion**.

Cliquez sur le bouton + pour configurer la caméra et sélectionnez **Point d'accès**.

Si votre smartphone n'est pas connecté au réseau Wi-Fi de la caméra, cliquez sur le bouton au bas de la page pour aller sur les paramètres Wi-Fi de votre smartphone.

Sélectionnez le réseau de la caméra de surveillance (SSID = URM\_XXXXXXX). Si nécessaire, saisissez le mot de passe Wi-Fi : 01234567

The device will open the hotspot with the "URM\_" field, please click the button below to go to the settings interface to connect to the hotspot.

Revenez sur **V-Stream** et cliquez sur **Suivant**.

Attendez l'étape suivante.

Au bas de la page, dans la liste des connexions Wi-Fi détectées par la caméra, sélectionnez la connexion à laquelle vous souhaitez associer votre caméra et saisissez le mot de passe Wi-Fi.

Attendez l'étape suivante.

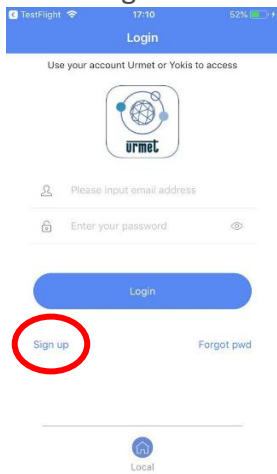

La caméra est dans la liste. Si l'état de la caméra n'est pas **En ligne**, faites glisser la liste vers le bas pour l'actualiser. Cliquez sur le dispositif pour démarrer la vidéo en direct.

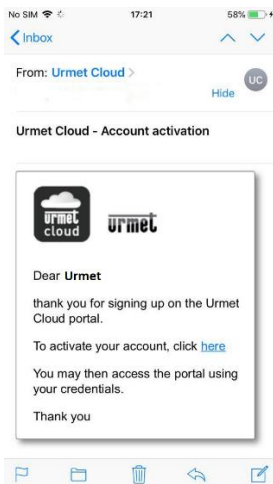

Vous pouvez maintenant voir les images directement sur votre smartphone.

# Schnellanleitung

## Zuweisung der Wi-Fi-Kameras

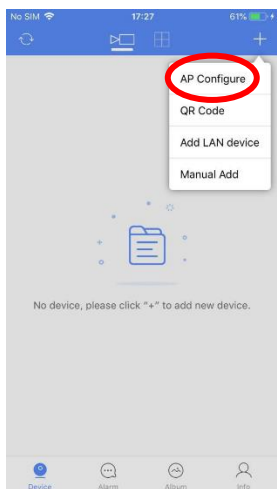

Laden Sie sich die App **V-Stream** aus dem Store herunter und gehen Sie auf **Anmelden** um Ihren Account zu erstellen.

Kontrollieren Sie Ihre Mailbox, Sie werden eine Bestätigungs-Mail erhalten, über die Sie die Registrierung bestätigen und Ihren Account aktivieren können.

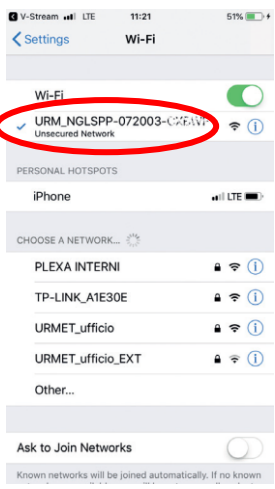

Geben Sie Ihre Benutzerdaten ein und gehen Sie auf **Anmeldung**.

Gehen Sie auf das Symbol **+** und greifen Sie nun auf die Option **Konfiguration AP** zu, um Ihre Kamera zu registrieren.

Ist Ihr Smartphone nicht mit dem WLAN der Kamera verbunden, öffnen Sie die WLAN-Einstellungen Ihres Smartphones durch Klicken auf die Schaltfläche am Ende der Seite.

Wählen Sie das Netzwerk der Kamera (SSID = URM\_XXXXXXX). Geben Sie bei Bedarf das WLAN-Passwort ein: 01234567

The device will open the hotspot with the "URM\_" field, please click the button below to go to the settings interface to connect to the hotspot.

WIFI: URM\_NGLSPD-2C185C7-75E112

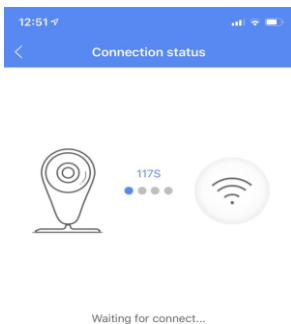

Zurück zur App **V-Stream** und Auswahl **Nächster**.

Bitte warten Sie auf den nächsten Schritt.

Runterscrollen zum Ende der Seite, in der von der Kamera erfassten Liste der WLAN SSIDs, Auswahl der des Routers und Eingabe des Passworts. Die Kamera verbindet sich nun mit dem ausgewählten Router.

Bitte warten Sie auf den nächsten Schritt.

Die Kamera erscheint nun in der Liste. Wenn der Kamerastatus nicht **Verbunden** ist, scrollen Sie runter und erneuern Sie die Listeneinträge. Klicken Sie auf das Gerätesymbol damit die Liveansicht aufgerufen wird.

Jetzt erhalten Sie die Aufnahmen direkt auf Ihrem Smartphone.
